

Building Livable Communities: Creating Resilient and Sustainable Economies

The 21st Annual Ahwahnee Conference for Local Elected Officials
Yosemite National Park — March 16-18, 2012

THURSDAY EVENING PRE-CONFERENCE SESSION: Join us for a special pre-conference session on the evening of Thursday, March 15. We will have the opportunity that evening to explore a topic of high importance to local governments with a key state leader (TBA).

THIS YEAR'S TOPIC: The 21st Annual Ahwahnee Conference for Local Elected Officials program will highlight innovative, proven techniques for developing and expanding local economies while, at the same time, creating more resilient and sustainable communities.

Lt. Governor Gavin Newsom (former Mayor of San Francisco) has been invited to outline strategies that local governments can use to create more green jobs in their regions. Newly appointed PUC Commissioner Mark Ferron, a former international banker, has been asked to address us on the critical role of energy efficiency in California's state and local economic recovery. His talk will be followed by a panel of local government experts who are putting his ideas to work. Additional, innovative strategies for reducing local government costs and increasing revenues will be offered by elected officials and business leaders.

CONFERENCE SCHEDULE: Attendees say the format is uniquely structured to combine cutting-edge solutions to critical problems with hands-on discussion of how to implement them. The main conference program begins at 7:15 pm on Friday, March 16th and continues through noon on Sunday. We will take Saturday afternoon off to ski, hike, or curl up by the fire. We encourage you to bring your family, attend the pre-conference session on Thursday evening, and use the session breaks to enjoy the breathtaking beauty of Yosemite in the winter. Join us in Yosemite on March 16-18 for this popular and educational event for local elected officials!
